Refnum:	21041530
Title:	Fecalith in the proximal area of the appendix is a predictor of failure of nonoperative treatment for complicated appendicitis in adults
Date:	2021/04/20

We hereby certify that Textcheck has checked and corrected the English in the manuscript named above.

A specialist editor with suitable professional knowledge (M.Sc. or Ph.D./M.D.) reviewed and corrected the English. An English language specialist subsequently checked the paper again. The first language of both editors is English.

Please direct any questions regarding this certificate or the English in the certified paper to: certified@textcheck.com
